Dear Mr. Nord:

Re: Submittal of Revised Part B Permit Applications for
Chemical Processors, Inc. Pier 91 and Kent Facilities

Schedules have now been determined for submittal of
revisions to the Part B Permit Applications for the Chemical
Processors, Inc. Pier 91 and Kent facilities.

We plan to submit revisions for the Pier 91 Facility Part B
by January 12, 1990. Our current plans call for submittal
of revisions to the Kent Facility Part B by April 30, 1990.
Revisions for the Kent Facility Part B are likely to be
extensive, to bring that permit application into line with
those submitted for the other Chempro facilities. We will
keep you informed of our progress on the Kent Facility Part
B revisions, and advise you if it becomes necessary to
change the planned submittal date.

I can be reached at 223-0500 if you have any questions.

Sincerely,

Catherine L. Buller
Environmental Programs Manager
